Note: You don't have to provide us with any personal information, but if you don't provide certain information that we need then we may not be able to proceed with your application for insurance, continue your policy or progress a claim that you make. When looking for an insurance quote from us, you will need to provide us with information relating to what you wish to be insured (e.g., car make/model, your home, details about you or other people to be insured). When buying certain products, we may need to collect special categories of data (e.g. medical or health information) and driving offences or convictions history. If you become vulnerable, due to a life event, health issue or other matter, we will seek to identify this and decide what additional support we can provide, so we can meet your needs and fulfil our obligations to you. To provide our products, we will also need to process your payment information (e.g. bank account details, credit and debit card details) to collect payments from you and to issue any refunds to you.

This may be done via your intermediary (if applicable), through our/their website (including digital chat media), by email, SMS, mobile Apps, telephone calls and/or by post. Telephone calls and the other ways we contact you or you contact us may be recorded for quality assurance, training, verification and security purposes.

Where you have opted for a motor product involving GPS vehicle tracking, we will collect and process information from the smart sensor installed in your car including geo-location, driving behaviour and/or kilometer usage data ('telematics' data).

If you need to claim under your insurance policy, or if you are making a claim against an Intact Insurance policyholder, we normally need to collect information that evidences what happened in the incident. If other people are involved in the

incident, we may also need to collect additional information related to them (including children) which can include special categories of data (e.g. injury and medical information).

When applying to us for an insurance policy, you may need to provide us with information relating to other people insured under the policy (or later if there's a claim). You agree that you will bring this Notice to the attention of each person named on the policy at the earliest possible time. Ensure that anyone else who is insured under your policy or may be a beneficiary (e.g. arising from a claim settlement) has agreed to provide their personal information to us. For those customers who have taken out a telematics-based motor product, you should let all drivers of your car know about the black box or smart sensor fitted to your vehicle that collects information about where and how your car is driven.

You can also find out more on the European Commission's [website](#).

5. Profiling, automated decision making and data analytics

We may conduct the following activities, which involve profiling and automated (computer based) decision-making:

- Insurance involves assessing risks, making determinations as to whether to accept or reject risks and charging the correct premium for each risk. When you apply for insurance, we may use Pricing and Underwriting engines and algorithms to create risk profiles about you and to make fully automated decisions – this involves processes which calculate the insurance risk based on the information you have supplied or that we have collected about you.
- The use of Telematics/ Smart Sensor data analytics – where you have opted for an insurance product that collects information using smart sensors (e.g., in-car “black box”) and this is used to calculate your insurance risk.

The results of these processes will be used to assess your individual risk and to determine if we can provide, or continue to provide, you with a policy, to decide its terms and to calculate the premium you have to pay. If you do not agree with the result, you have the right to request human intervention to allow you to express your point of view, to obtain an explanation of the decision reached and to contest the decision.

In respect of Claims, we may use profiling or automated processing to identify if your claim presents a higher risk of fraud (but these processes do not involve decisions being made solely based on automated decision-making).

We may also use your personal information to develop and improve our machine learning, artificial intelligence, statistical modelling and to develop or improve our products, services and processes.

6. How long will we keep your personal information?

In general, we will retain your personal information for 7 years from the date of cancellation of your policy or the closure/settlement of your claim. Quote information (where a policy is not taken out) is generally retained for 6 months. We generally retain call recordings for 7 years from the date of the recording to comply with our regulatory obligations. There may be reasons why we need to retain your personal information for longer periods, for example in the case of employer's liability insurance and subsidence matters, or to comply with our legal and regulatory obligations.

7. What are your Rights?

You have legal rights under data protection law in relation to your personal information:

- 1) **Right to Rectification:** Correct any information we hold about you if you think it's incorrect or incomplete.
- 2) **Right to Erasure:** Request your personal information be deleted where you believe it's no longer required. We may not always be able to do this, for example, while you're still insured with us or where we need to keep your personal data to meet legal or regulatory obligations.
- 3) **Right of Access:** Provide you with a copy of the personal information we hold about you.
- 4) **Right to Portability:** Request that we transfer a machine-readable copy of the personal information you have given us, to another company.
- 5) **Right to Restriction:** Request that we restrict our use of your personal information in certain circumstances.
- 6) **Right to Object:** Object to the processing of your personal data for marketing purposes or for any purpose where processing (including profiling) is necessary for the purposes of our legitimate interests (see table above).
- 7) **Right to Withdraw Consent:** To withdraw your consent at any time, where your consent is our basis for using your data (see table Section 2 table) without affecting the lawfulness of processing before consent is withdrawn.
- 8) **Right to Contest Decisions:** To contest decisions based solely on automated decision making, obtain an explanation of the decision reached, express your point of view, and ask for human intervention.

Please note that requests to object to or restrict the use of your personal information may lead to us being unable to continue to service your policy and lead to cancellation of your policy.

If you would like to request any of these Rights, please email us at ie_dataprotection@intactinsurance.ie or write to us at the address in Section 9 of this Notice. When you're making the request please provide us with your name, address, date of birth and any policy numbers that you have. You may need to provide us with a copy of your photo identification to ensure we do not provide your personal information to anyone that is not entitled to it.

All requests are free, unless we think your request is manifestly unfounded or excessive in nature. We aim to respond within one month from receipt of your request. If we cannot, due to the complexity or repeated nature of a request, we will let you know as soon as possible and explain the reason for this.

Submitting a request does not mean we will be able to complete it or complete it fully. We are often bound by legal and regulatory obligations or may rely on a lawful exemption which restricts the scope of our obligations as a Data Controller. When this is the case, we will explain this to you in our response, and that you can lodge a complaint with the Data Protection Commission or bring the matter to Court.
